This is the e-mail I sent to Dave Samuel yesterday. As we discussed, NL will do its part at the CAG on October 11. I'll pass along to NL the prospect of proceeding via a time critical removal route rather than an EE/CA. We obviously need to meet soon and agree upon the appropriate legal path forward. I suggest a meeting soon after Labor Day.

Stay dry this weekend and thanks for your help.

Dave:

NL is not ignoring Joe regarding his request that we attend and make a presentation at the CAG on October 11. We are happy to be *part* of the team to present the proposed beach remedy. While I do not want to engage in semantics, at a minimum, however, I thought that the beach cleanup was *our* solution, not just NL's. It has been a couple of years since I have been to one of these meetings. But it seems that while NL can and is willing to make a detailed presentation of the proposed work at the CAG, it seems to us that the Old Bridge elected officials and EPA (and maybe DEP) need to first state unambiguously that you are supportive of this approach. It would be my hope that we could actually get some homeowners, business owners and other community members to attend the meeting who are also supportive of this approach. Often, these meetings are attended primarily by naysayers. It is important that we present a solid front. I do not know whether Hurricane Irene is going to disrupt your

vacation, but I would love to set a call with Joe and you to discuss how we all envision this meeting proceeding.

Finally, as we discussed at our last meeting, Chris Reitman would like to get on the site to dig a few test pits. What hoops do I need to jump through with the Township to make this happen. As always, thanks for your help.
